Some Very Special Visitors

We were delighted to receive a return visit from Agape Preschool and Day Care. They had visited us last year and 'adopted' Stevie and came back recently to adopt Daisy. We encourage schools and all organizations working with children to visit us. Not only is it fun but it is also a wonderful opportunity to teach kindness to animals and respect for their welfare.

After visiting the donkeys, the children spent some time playing with the kittens in the cattery playroom.

We also were very glad to receive a most welcome visit from the Lebanon Moravian Sunday School. The group made a very kind donation to help us with the care of the animals. Hope you had a good time! We know the animals did!

Update re Vernon

We anaesthetized Vernon this week in order to castrate him and took advantage of the situation to measure his leg for the leather support we plan to have made to make him more comfortable. We will be visiting the shoemaker this week – suspect he won't have had many requests like ours before!
